SUMMARY

Recent Information Technology graduate with hands-on experience in SQL, Python, Microsoft Excel, PostgreSQL, and Power BI/Tableau. Skilled in data cleaning, data validation, exploratory data analysis (EDA), dashboard development, and KPI reporting through internships and analytics projects. Experienced in transforming large datasets (100,000+ records) into actionable business insights to support data-driven decision-making.

TECHNICAL SKILLS

- **Programming & Querying:** SQL, Python (Pandas, NumPy, Matplotlib, Seaborn)
- **Databases:** PostgreSQL, MySQL
- **Data Pipelining & Extraction:** SQL-based querying and extraction of large datasets (100,000+ records) from PostgreSQL/MySQL
- **Visualization & Dashboard:** Power BI (Data Modeling, Power Query, DAX), Tableau
- **Excel:** PivotTables, VLOOKUP/XLOOKUP, Conditional Formatting, Power Query, Charts
- **Analytics:** Data Cleaning, Data Validation & Quality Checks, EDA, KPI Reporting, Dashboard Development, Data Modeling
- **AI & Automation:** Generative AI, Prompt Engineering, LLM-assisted workflow automation
- **Tools:** Git, GitHub, Google Sheets

EXPERIENCE

IBM SkillsBuild — Data Analytics Intern (Virtual)

June 2025 – July 2025

- Extracted and cleaned structured industry datasets using SQL and Excel, building standardized dashboards to surface KPIs and business trends.
- Performed root-cause checks on data inconsistencies during validation, resolving discrepancies before final reporting delivery.
- Refined dashboard accuracy and clarity across iterative review cycles based on structured mentor feedback.

IBM SkillsBuild — Generative AI Intern (Virtual)

July 2026 – Present

- Applying prompt engineering and LLM workflows to automate recurring analytics and reporting tasks, improving workflow efficiency and productivity.

DATA ANALYTICS PROJECTS

Ola Booking Analysis

SQL (PostgreSQL) | Power BI

- Queried, cleaned, and analyzed 100,000+ ride-booking records using SQL; built Power BI dashboards to monitor KPIs, cancellation trends, and operational performance.

Customer Behaviour Analysis

Python | PostgreSQL | Power BI

- Performed EDA using Python and PostgreSQL to identify customer behavior and sales trends; developed Power BI dashboards for business reporting.

HR Analytics Dashboard

Tableau | Microsoft Excel

- Built a Tableau dashboard tracking attrition, employee demographics, and key HR metrics with interactive charts and filters.

Swiggy Data Analysis

Microsoft Excel

- Built an Excel dashboard analyzing 197,000+ records to visualize sales, customer, and product performance using PivotTables, Charts, and Slicers.

Coffee Shop Analysis

Power BI (DAX, Power Query)

- Built Power BI dashboards using DAX and Power Query to analyze 100,000+ records and surface business insights.

EDUCATION

Bachelor of Engineering, Information Technology

2023 – 2026

Padmabhushan Vasantdada Patil Pratishthan's College of Engineering | CGPA: 8.4

Diploma, Information Technology

2020 – 2023

Government Polytechnic, Mumbai

CERTIFICATIONS

- Deloitte Forage – Data Analytics Job Simulation
- Tata Forage – Data Visualisation: Empowering Business with Effective Insights
- Coursera Project Network – Introduction to Data Analysis using Microsoft Excel
- HackerRank – SQL Skill Certification
